EOSCOM, L. SPANISH GO LURUPE, NOV. 11, 1947, 4:30 P.I. EST

(Commentery by Aronil)

"Ultimately Pricto issued a note stating that nobody had mentioned having reached agreement with Cil Robles or even of heving seen him. In the same note he acked that no details had been revealed of the outcome of his conversations with Bevin in London. From this we can at least deduce that nothing good can emerge from the filthy boiling pot of compromise.

Which in Ionlouse Priete servered his plan to abandon the cause of the Spenish Republican institutions, the Spenish Cormunict Farty in public statements and in its press denounced the Priete managers as an attempt to break up the unity of the denocratic forces and to replace the denocratic solution for which the Spenish people are fighting by a reactionary issue by which the escence of the France regime could be saved and at the same time the interests of British imperialism and Yankee expansionism in the Iberian peninsula.

"Soon it become clear by his philanderings with the monarchists and Gil Robles and by his ministerial interviews in Paris and London that Indalecto Prieto was the instrument of certain chancelleries which favored solving the infamous Franco problem by keeping the Franco regime.

Wit would noem that in this respect Pricto did not reach the mark. What happened was that this energetic voice of the Spanish Communist Party made itself heard. It interpreted the Feelings of the great majority of the Spanish people and of the resistance. It unused of the Pricto plan. It warned the people against what this plan would less to. It opposed the Pricto testice of disuniting the Spanish working classes...

While the Prieto anti-Communist preachings did not blind certain men inside and outside of Spain to the fact that Prieto's auti-Communium concealed the same as does Prenco anti-Communium; namely, the hatred of democracy and fear of the people. Prieto laderated or Gil Robies, Bavin, and Midault, but he had not taken into account the Spanish patriots who are fighting to literate their country from the Franco yoke.

"The reactionary to see on which Prieto relied are undermined by internal contradictions. Different rections are fighting fof the hegenony of your and it is also obvious that the principles of foreign aid cleah because British imperialism. Like that of the United States and French reaction, have their respective objectives in Spain.

"Have all the parils threatening Spanish denoting disappeared? Does the Frieto trip to Mexica mean that there plans have been abandoned? Not at all. But it is now obvious hat it is not an easy matter to make the Spanish people forsake the road of their struggle. It is also clear that the working classes and the true anti-France forces such consolidate their unity and increase their struggle so as to hasten the working of France and so that there is no return from journeys undertaken by people like Friste."
